

Guide to Value Roadmap Services for SuccessFactors customers

INTRODUCTION TO VALUE ROADMAPS:

Does your business have an ambitious growth target within 18 months? Does it need to reduce the gender pay gap to less than 5% within seven years? Does it need to reduce operation costs by 3% or increase productivity by 7%? Do you need to change the business' skill profile within 5 years?

Wherever your business is trying to get to, the journey to its destination will be a map of decisions. The decisions made by business and HR leaders about your people will determine whether or not the workforce is an asset or a risk to business delivery.

SuccessFactors has the highest strategic impact when it empowers HR and business leaders to **Make Better People Decisions**.

3n Strategy is an SAP SuccessFactors partner that specialises in Value Roadmaps. We create practical roadmaps that map out how your SuccessFactors modules unleash the strategic impact of HR and business leaders.

BUILD A VALUE ROADMAP IF YOU NEED TO:

MAP OUT the decisions being made by HR and business leaders about the workforce.

PLAN a practical roadmap for how SuccessFactors will delivery evolving value over time.

PLOT how your SuccessFactors modules will unlock the potential of strategic and operational decision-makers across your business.

TRACK and prove the impact of HR using SAP SuccessFactors over time.

WHAT DOES A ROADMAP LOOK LIKE?

The decisions your business makes about its people is live and dynamic – so why would your SuccessFactors Value Roadmap be any different?

All 3n Strategy customers receive their Value Roadmap output in an interactive digital document we call a 'Playbook'.

Playbooks utilise innovative visualisation technology to tell the story of how your business is managing its people and how SuccessFactors unlocks that value.

As your business learns to make more and more better decisions, the Playbooks are updated over time to document the success of your HR strategy and your SuccessFactors modules.
